## H2O Wine on Tap

By offering Wine on Tap, we bring fantastic wines straight to the table in the fewest possible steps. Wine goes from the barrel, to a cask, to your glass. No bottles, no labels, no corks.

Despite what Kermit may think, it is “easy being green!” By shipping Wine in Kegs from the wineries straight to our restaurant in our re-usable wine casks, we skip the need for bottles, corks, cases and labels. Great wine finds its way to your glass with a much lower carbon footprint. No corks means wine is never spoiled and never wasted, unless of course you don't finish your glass.

Now that would be tragic.

Saving the planet never tasted so good.

**Your first glass of any of our fine tap wines will be just**
